

**Double Glazed**

Glazing Space = 1.25  
 Minus Face Rubber - .110  
 Minus Glazing Tape - . \_\_\_\_\_  
 Equals Over All  
 Glass Thickness = \_\_\_\_\_

**Triple Glazed**

Glazing Space = 1.9375  
 Minus Face Rubber - .110  
 Minus Glazing Tape - . \_\_\_\_\_  
 Equals Over All  
 Glass Thickness = \_\_\_\_\_

**Face Rubber**

(Small) 8515 = .090  
 (Standard) 8520 = .110  
 (Medium) 8530 = .130  
 (Heavy) 8540 = .164  
 (Ex Heavy) 8550 = .220

**Note: This is to be used as a guide line Only  
 Due To Extruding Tolerances ,  
 Paint Thickness ,  
 Etching (thinning) During Anodizing  
 This space Can Vary  
 A mockup (sample) Should Be Test Each Time**
